Keeping children safe online at Kingsley Primary School

At Kingsley Primary School safeguarding is one of the most important responsibilities we hold, which also means safeguarding our students in the online world. As you know, children now use the internet for multiple activities including learning, creativity and collaboration, but with that, there are also potential risks we need to guard against. School works with the specialist safeguarding and security provider Schools Broadband, who provide us with the tools we need to keep your children safe and ensure that any potential safeguarding concerns are identified and addressed promptly. Below is a short summary of the tools we deploy.

Online Filtering

We have an age-appropriate web filtering service to help prevent access to online content that is illegal, inappropriate or potentially harmful. In practice, this means the filter blocks known unsafe websites and content, including content that is unsuitable for children and prevents accidental exposure to harmful material while pupils are researching or browsing for learning.

Online Monitoring

The DfE makes a clear distinction between filtering and monitoring: whereas filtering is preventative and helps stop pupils reaching harmful content in the first place, monitoring is reactive and involves real-time alerts to help our teachers spot concerning activity so that we can respond appropriately and call in our specialist safeguarding staff if necessary. Our monitoring solution is also able to capture and assess risks even when a device is offline, ensuring no gaps in our monitoring.

Safeguarding Concerns

If we receive an alert that suggests a pupil may be at risk, our staff follow the school's safeguarding procedures and involve our Designated Safeguarding Lead (DSL), as needed. This is part of the school's wider safeguarding responsibilities, which include recognising that children can be harmed online as well as offline.
